The Global Village Museum of Arts and Cultures was established in Fort Collins in 2006 to celebrate the world’s diverse cultures. Through the Museum’s exhibits and programs our vision is to preserve and share experiences and knowledge gained from the world’s rich cultural heritage.

The Global Village Museum offers community members of Northern Colorado the opportunity to explore and discover international cultures.

The Global Village Museum is a 501(c)(3) organization.

Global Village Museum Culture Kit Program

“Portable Museums” providing researched information on the various objects, maps, books, and suggestions for activities in different age groups.

About GVM
The Culture Kit Program creates “Portable Museums” – large carrying cases filled with intriguing, relevant, and meaningful items on a specific topic across many cultures. Designed primarily for elementary and middle school students, the kits emphasize and celebrate diversity through a universal and unifying theme. These multi-cultural and multi-dimensional resources are used by public and private school educators as well as home school associations. The kits provide researched information on the various objects, maps, books, and teacher suggestions for activities in different age groups. The kits augment a student’s curriculum and provide hands-on interaction with both familiar and unfamiliar objects, thus bridging the gap between cultures. Each kit can be used independently or in conjunction with other kits.

We asked local teachers and homeschool parents what they wanted, and the Museum assembled kits based on their needs:

- Water Consumption & Conservation
- World Beliefs
- Traditions and Heritage
- World Economy
- Canada
- Making Pinatas
- Musical Instruments
- Hieroglyphs
- Storytelling
- History of Paper

By the end of 2019, we are hoping to have 15 kits assembled. Your sponsorship will help with materials, research, and design.

An informational folder with each Kit includes:
1. Objectives of the Kit;
2. Descriptions of each artifact;
3. Questions to brainstorm;
4. Hands-on classroom activity; and
5. Supplies and materials for activities.
